

Ethan Rodriguez

Backend Engineer | ethan.rodriguez@email.com | +1 987-654-3210 | Austin, TX

Professional Summary

Experienced Backend Engineer with over 4 years of hands-on expertise in building robust, scalable server-side applications using Python, Django, and FastAPI. Strong understanding of database design, API development, and cloud infrastructure (AWS). Proven success in deploying microservices, optimizing application performance, and working in Agile teams to deliver secure and reliable software solutions.

Technical Skills

- Programming: Python, Go, Shell, SQL, Bash
- Frameworks: Django, FastAPI, Flask, Celery
- Tools: Git, Docker, Kubernetes, Jenkins, Terraform
- Databases: PostgreSQL, MySQL, Redis, MongoDB
- Cloud & DevOps: AWS (EC2, S3, RDS), CI/CD, Nginx, Prometheus, Grafana

Professional Experience

Backend Engineer | CloudNova Technologies | Austin, TX

Feb 2022 - Present

- Designed and deployed RESTful APIs using FastAPI and PostgreSQL for analytics platform.
- Migrated legacy services from Flask to Django, improving response times by 30%.
- Built CI/CD pipelines using Jenkins and Docker; reduced deployment time by 60%.
- Integrated AWS S3 for media storage and implemented secure data pipelines.
- Monitored system performance using Prometheus and Grafana.

Ethan Rodriguez

Backend Engineer | ethan.rodriguez@email.com | +1 987-654-3210 | Austin, TX

Software Developer | ByteBridge Labs | Austin, TX

Jun 2020 - Jan 2022

- Developed Python microservices for a fintech application, integrated with Redis cache.
- Used Celery for background task processing and job scheduling.
- Wrote unit and integration tests to maintain 90%+ test coverage.
- Collaborated with DevOps team to containerize services using Docker and deploy to Kubernetes clusters.

Education

B.Tech in Information Technology | Texas A&M University | Graduated 2020
